## WHATIFBROS *Creative Team*

We're a highly experienced creative open to offers of through-the-line work. Although our more than 40 years combined experience we have a beginner's mentality. You see, we know enough to know that we can't know it all. That's why we are keen to learn and take nothing for granted.

To us, showing up, and showing up consistently, is a non-negotiable. The need to understand the marketing communications problem is always uppermost in our minds. We trust in the creative process and stick with it even more ardently at the most challenging of times.

We constantly ask ourselves, What If, as we always aim to situate things differently. We get along but do not shy away from disagreements. They are grist to our creative mill. We strive to get along with whoever we work for.

**'I have come a long way from mine intern to mine owner'**  
 Interviewing Matthew Simons, Overlooked Gallery

I have always loved mining, that's why I went to the University of the Witwatersrand, to study mining engineering. After my studies I worked as a mining intern at Anglo American. As my bigger life dream was to own a mine rather than work as one, I quit my job and eked out a living selling furniture, whilst looking for business opportunities in mining. In 2018 I finally, with the help of the IDC, bought a 31% stake in Overlooked Gallery (Pty) Ltd. Apart from creating more job opportunities, we contribute to community development. I have come a long way and I am proud of having brought others along with me.

The best for movies doesn't mind as to the fact that movies are a tough business. We approached the IDC to partner with funding for our movie 'See the Winner in My Mind'. What's great about our partnership with the IDC is that they were invested in our success as we are and have exceeded beyond this one movie. Because of the IDC's investment, we have been able to create more movies and collaborations, setting us up to help ourselves, South African movies. ## MEDAL UNIVERSAL STAINER COLOUR RANGE

### STEP BY STEP GUIDE

1 Choose any Medal or Safar branded White PVA or Enamel Paint.

2 Choose the Pastel shade you desire & select the corresponding Medal Universal Stainer.

3 Shake Stainer bottle well. Open carefully & pour small amounts into Medal or Safar branded white colour paint.

4 Mix your Stainer into your paint well, with a paint stirrer until you reach your preferred colour.

5 The paint is ready to use once an even colour appears.

### DO'S & DON'TS

Medal Universal Stainers are best suited for Medal or Safar branded white colour PVA or Enamel Paint. Slight colour variations will occur when Medal Universal Stainers are used with other paint brands. The colour of a Medal Universal Stainer bottle cannot be achieved. Only a pastel shade of the bottle colour can be achieved. Mix Stainer into paint well before use. The maximum amount of Stainer that can be added to paint is 200ml to 20 litres of paint or 50ml to 5 litres of paint. This is the maximum ratio of Medal Stainer to paint that can be mixed, not following the application described above will lead to compromising the paint causing it to streak. Depending on your application, we advise you mix-in the quantities of paint required. This prevents possible colour variations caused by frequently mixing smaller batches of paint. Always paint a test patch of colour onto your wall.

\* Quantity of Universal Stainer in 20 litres of white Acrylic PVA paint. Printed colour may vary from actual paint colour. Always paint a test patch of colour onto your wall.
